

Dealer Advisory

Hour Meter/Key Switch

Advisory Type	Informational
Affected Units	All mowers equipped with key switch.
Situation	Hours will accumulate on the hour meter if the key is left in the run position as well as battery voltage drain.
Factory Action	Assembly and Shipping have been made aware of this issue and are instructed to make sure the key is in the “off” position.
Dealer Action	Communicate this information to appropriate employees as well as customers.

Note: When the key is in the “RUN” position, the hour meter will display the hours on the mower.

Note: When the key is in the STOP position, the hour meter will not display the hours.
